

HellermannTyton Relaunch Patch Lead Range

HellermannTyton have relaunched its copper patch lead range, repackaged in individual bags with test results supplied for each patch lead.

The high performance patch leads are UK manufactured exceeding the ISO/IEC 11801 and ANSI/TIA/EIA 568-C.2 Cat6 and Cat5E standards.

Available in a variety of colours and lengths as standard, the HellermannTyton patch lead is fitted with a low profile plug ideal for the data centre environment.

About HellermannTyton

Founded in 1988, HellermannTyton Data Ltd is an established leader in the design, development and manufacture of innovative network infrastructure solutions for both LAN and WAN environments. The company offers a broad range of quality, high performance structured cabling products including Deca¹⁰, the copper and fibre 10G solution; the unique pre-terminated, 'plug & play' RapidNet™ system; iD intelligent infrastructure management; and a full range of market leading closures for Broadband applications incorporating the patented Cablelok™ mechanical seal. Based in Northampton, UK, the company is part of the global HellermannTyton group with operations in 34 countries worldwide. For more information visit www.htdata.co.uk
